A2069/A2169
10:1 Quint Mainsheet System

A2069/A2169 10:1 Quint Mainsheet System

Combine the engineering quality of Allen Dynamic Ball Bearing blocks with 60mm sheaves and a 10:1 purchase and you have the ultimate mainsheet control system for fast catamarans. Developed on foiling cats such as the Nacra 17 and A Class by Team Allen sailors used on race winning boats in National and European F18 events, the Allen A2069/A2169 10:1 Quint Mainsheet System has a winning pedigree.

The lower block features a switchable ratchet block to reduce fatigue and a cam cleat and fairlead for accurate cleating and easing under load. The system gives the performance catamaran sailors need at a price that they can afford. The Allen A2069/A2169 10:1 Quint Mainsheet System is available from Allen stockists or to buy direct from www.allensail.com
